Program Syllabus

PROGRAM OVERVIEW

AI Adoption as a Banking Growth Driver

Tailored specifically for JSC Credo Bank, this AI program focuses not on general theory, but on **increasing operational efficiency**, **process automation**, and **supporting managerial decision-making** in the real work environment.

Operational Efficiency

Accelerating routine tasks, B2B/B2C communications, document analysis, and daily reporting processes up to 10x using hands-on AI tools.

Multi-Agent Ecosystem

Integration of Gemini Gems, Custom GPTs, and workflow automation (n8n/Make) to build personalized, specialized AI assistants for Credo Bank departments.

AI Risks & Regulations

In-depth understanding of the EU AI Act, data privacy (GDPR/confidentiality), and Shadow AI prevention principles in the financial sector.

Adoption & Change Management

Building a prioritization matrix, AI ROI assessment, and 90-day implementation roadmap to ensure successful knowledge transfer and adoption across teams post-training.

— TRAINING PROGRAM

Syllabus for Practical AI Application & Integration

A 4-session training curriculum (3.5 hours each), combining advanced AI technologies, hands-on exercises, and real-world banking use cases.

1

AI FOUNDATIONS, BANKING SECURITY & PROMPT ENGINEERING

SESSION 1

3.5 Hours (210 mins)

▼

MODULE 1 · 70 MINS

Modern AI Landscape 2026 & Banking Security

→ LLM Evolution:

How reasoning-oriented models work.

→ 2026 Landscape:

Comparison of GPT-5.4, Claude 4.6, Gemini 3.1, and DeepSeek V3.2.

→ Security & Privacy:

GDPR, National Bank regulations, and customer data protection.

→ Fact-Checking:

Mechanisms of AI hallucinations and minimizing them in financial reporting.

MODULE 2 · 70 MINS

C.R.E.A.T.E Prompt Design Framework for Managers

→ C.R.E.A.T.E:

Context, Role, Explicit Details, Adjectives (format/tone), Templates, Evaluation.

→ Advanced Prompt Engineering:

Few-Shot learning, Structured Reasoning, and Role Prompting in practice.

→ Thinking Partner:

Using AI as a peer for strategic brainstorming and decision-making.

MODULE 3 · 70 MINS

Managerial & Crisis Communication Workshop

- **Official Correspondence:** Generating context-specific, empathetic customer letters and official notifications.
- **B2C Communication Adaptation:** Tailoring credit/banking offers for diverse customer segments.
- **Iterative Refinement:** Step-by-step prompt tuning to achieve flawless formatting and tone.

 PRACTICAL LAB (SESSION 1)

- 1

CREATE Banking Prompt
Generating an empathetic, legally compliant notification regarding complex financial decisions.

20 min
- 2

Crisis Communication
Drafting an official PR statement using the PARTS framework regarding temporary service downtime.

15 min

— TRAINING METHODOLOGY

Practical, Interactive & Business-Oriented Approach

Our training methodology focuses on maximizing participant engagement, ensuring theoretical concepts are immediately transformed into practical skills.

Interactive Workshops

Every theoretical module concludes with a live demonstration and active hands-on labs executed by participants on their own laptops.

Banking Case Studies

Using real-world international and local financial case studies directly relevant to Credo Bank's daily operational workflows.

Collaborative Problem-Solving

Participants collaborate in team breakout groups to analyze AI implementation scenarios and solve operational roadblocks.

Experience Sharing & Peer Review

Interactive discussions and peer review sessions where managers exchange best practices on AI utilization and efficiency gains.
